World's Best Specialized Hospitals 2021

<https://www.newsweek.com/worlds-best-specialized-hospitals-2021/neurology>

World's Best Specialized Hospitals 2021

In our nine decades, *Newsweek* has covered all aspects of health care—scientific challenges, economic disruption, the occasional medical miracle and most of all, what these developments mean for our readers. As part of that commitment, we've partnered with *Statista Inc.*, the global market research and consumer data firm, to rank the world's best hospitals.

Now we're expanding that expertise by looking at specialties. After the publication of the first part in September, in which we awarded the best hospitals for cardiology, oncology and endocrinology, we conclude this year's ranking with the best hospitals for neurology, gastroenterology and orthopedics. Each list includes a ranking of the 50 best global hospitals, while ranks 51 to 100/200 are sorted alphabetically. If you or a loved one needs specialized care in one of those areas, as millions of us do, you want to know which hospitals or medical centers have state-of-the-art facilities and the most knowledgeable, accomplished physicians.

Where will you have access to the best diagnosticians, highest level of care and most effective treatments? We're proud to offer our readers these independent, authoritative and reliable *Newsweek/Statista* rankings.

If your hospital is listed below, [you can find out more about the licensing options visiting the Statista website.](#)

Nancy Cooper
Global Editor in Chief

NEWSWEEK

Rank	Hospital	Department	City	Country
1	Mayo Clinic - Rochester	Adult Neurology and Neurosurgery	Rochester, MN	United States
